Of:

Committee: Joint Committee On Ways and Means Subcommittee On Capital
Construction

Measure: HB5201

The investment is not only in baseball, but also in the community. It will provide opportunities for the community to gather and baseball always gives back to the community. It would be a shame if the stadium isn't built and for the state to lose a team. It would also show that Oregon is not a place for sports to succeed and we'd lose out on other opportunities for our sports community. Just like we did with the WNBA. We need this bill to move forward for the sports community.
