

Submitter: Elizabeth Moran
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB1583

I support SB 1583. How do we move forward without an accurate depiction of our pasts? How do we expect a better and brighter future for any of us if we repeat mistakes because we were not allowed access to the truths of our pasts? A better and brighter future is built on truths and the voices of all people. So many people claim they want a better world as we move forward but refuse to do that work. It is measures like this that protect all of our futures and harness the hope that we can learn from our past. What is the point of education if you are unwilling to learn or unwilling to teach our children?
