

Submitter: Troy Spence

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

We've seen bad faith bills like this a thousand times. It's not even a surprise to anyone by the buzzwords in the language that it is a direct attempt to expose children to adult content and then use their impressionable minds as a way to push them towards decisions they would otherwise not make, later regret, and then can't undo. It's a disgusting abuse of power by sleazy adults who more often than not turn out being identified as pedophiles later on.
