

Submitter: Kelli Milton  
On Behalf Of:  
Committee: House Committee On Rules  
Measure: HJR201

As a homeowner, I am tired of being taxed on something I already paid for. Imagine being taxed every year you own a clothing item for that item. How much harder would it be to clothe a family?

We are being taxed for the same thing over and over again, making homeownership harder and harder. If your goal is to increase the homeless population, which I do pay taxes towards as well, then you're doing a great job. So many cannot afford life right now, and this bill will make that even harder for so many.

The state legislation needs to stop putting every issue as a problem for the tax payers. So much money is wasted for research into things that aren't the big issues in this state, yet you continue to go down the path even when the tax payers are screaming for you to stop. You work FOR the tax payers, start listening to us when we say enough is enough.
