Measure: HJR201

I am a retired resident of Clackamas County I believe in local control for property taxes. Giving total control to the state government would put people like me in jeopardy of losing their homes would raise rents and would make it harder for young people to acquire their first home. The state government has already shown that it has little little concern for its people when it comes to taxes .We already pay some of the highest taxes in our country. Our local school district wants to pass a new bond measure that would cost me an extra 2000 dollars a year. Add that to total and unlimited non voter controlled taxes and that would put a lot of Oregonians out of there homes. The state has already shown there addicted to our pocket books and cannot control them selves.
