

Submitter: Karen Goodness

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

If I wrote a book about my experience with heroine and speed using a syringe, I could call it Syringe Use by They/Them and get it into the schools and all libraries. I believe that book would be called Grooming. Drug users of fentanyl might buy my book and benefit, right? Because of my Christian values I have been stalked for 15 years with laser beams to my eyes, nausea weapons and things that most of you could not endure. Jesus does not discriminate. He loves you....all of you.
