Measure: HB4106

I strongly oppose HB 4106. If passed, this bill would undermine the state forest plan to conserve crucial fish and wildlife habitat and would result in more clearcuts, less habitat, and more timber industry lawsuits. Clear-cutting is irresponsible forestry and irresponsible logging has left inadequate habitat for wildlife. Replanting has created dense plantations that pose high fire risks. Road construction and herbicide use further degrade the environment. Please don't let this bill pass out of committee.
