Construction

Measure: HB5201

Since moving to Oregon in 1994 I became a fan of the Emeralds. Throughout the years I have taken my son to games during the summer. The bond that is created between a father and son watching baseball is amazing. The memories that you have for the rest of your life. My son is now 31 and we are still looking forward to supporting our Emeralds. You can't take this amazing summertime classic away from us.
