

Submitter: Deborah Swenson
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB1550

Oregon's Department of Education is a misnomer. Children are NOT being educated. Kids are being given diplomas they have not earned. Young children are being brainwashed to think they can change their gender. Pedophiles are being allowed to do story hour. If it were all up to me, all personnel who are involved with children and encouraging these activities should be jailed - in no uncertain terms. I am infuriated with the blatant child abuse happening. People involved with this are a detriment to society. This is sick sick sick. I am so very grateful to any who are trying to change these things. I am also grateful my children got out before this lunacy began. These are really sad and disgusting times. Oregon can do better.
