

Submitter: David Wall
On Behalf Of: Mr Oregon Protect The Disabled
Committee: House Committee On Judiciary
Measure: HB4088

I SUPPORT [HB 4088]...Mr. Oregon wants to shield and protect the Disabled persons.

Our society is changing and not for the good of all.

Hospital's are going to be required to have FUND the necessary Security measures to protect staff, patients and their visitors. This includes the requirement to have fully armed Security Personnel 24/7 especially at Emergency Rooms.

There are severely Disabled people who are "violent" as a direct cause of their disabilities.

The law provides affirmative defenses for mentally incapacitated persons.

The cost of Health Care is going to rise to adequately FUND Hospital Security.
