

Submitter: Stephen Carroll

On Behalf  
Of:

Committee: Joint Committee On Ways and Means Subcommittee On Capital  
Construction

Measure: HB5201

I have lived worked and voted in Clackamas and Multnomah counties for over 50 years. I started my career 50 years ago working in residential treatment for children with mental and behavioral problems. After eight years working on the line I went back to graduate school and got a job working for the Department of Human Services/ Child Welfare. I retired from DHS after thirty years of service in Multnomah County. Since my retirement I have volunteered my time and currently serve on the Board of Parrott Creek. I am excited to be a part of this excellent program as we build for the future of providing for the youth and young adults from our local communities and around the state. The 8 million dollars for the capital campaign will help us complete the 40 new beds so needed for our state. Thank you for all the support you're providing to move us forward into brighter futures.

Sincerely, Stephen Carroll
