On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure: SB1593

ONRI absolutely and without question opposes SB 1593. This Legislature has done enough harm to timberland owners! The Private Forest Accord is taking managed timberland from timberland owners without compensation, now you want to tax them for what they can harvest - NO! STOP!! You must look at the forest through the trees! Oregon's Legislature is neither wise nor balanced and you DO NOT represent The People of Oregon!!

With GRAVE concern,
