Measure: SB1593

I strongly oppose SB 1593. This bill claims to study a way to fund wildfire but the Legislature already funded a quarter of a million dollar study on wildfire funding in 2020. We don't need another costly study.

This isn't even a true exercise in academic study – it's a lopsided attempt to gather information that will help one legislator make a case for increasing taxes on the timber industry in 2025.

We don't need more taxes that's for certain.

Thanks and keep trying to help us.
