

Submitter: Annie Long
On Behalf Of:
Committee: House Committee On Rules
Measure: HB4026

Our constitution guarantees us a right to vote and we are alarmed by this attempt to take our voting rights away. In essence silencing us. NO!

We, the people living and working in North Plains, many for generations, should retain the right to have a say in our own neighborhoods! This doesn't mean we all oppose progress or expansion but we should be able to have a say in any proposed changes that would directly affect us with population increases, overdevelopment, taxes, traffic and utilities, water, electric, etc. Quality over quantity. Cooperation over corruption.

Please don't allow big money, self interest persons or businesses to hijack citizens rights.

We should and want to be able to maintain our quality of life and vote on any and all changes proposed to our city and its surrounding areas.

Thank you
