

Submitter: Chad Kernutt

On Behalf Of: WE THE PEOPLE

Committee: House Committee On Agriculture, Land Use, Natural Resources, and Water

Measure: HB4106

Dear Lawmakers,

Please vote YES on HB-4106. We have a housing shortage crisis that has reached crisis levels with not only a limited supply of lumber but also with the limited supply of lumber being through the roof on costs!! If we want to build more homes and get more people into homes than we need to produce more lumber and at cheaper prices by harvesting larger quantities so getting an affordable home is more in reach of our lower income Oregonians and families. More logging will also produce more jobs and on a very important note it will clear out more fire hazards by thinning our forests so they are more defensible when wild fires get started which helps our air qualities in the summers and keeps the fires from burning homes and towns and killing people. This is a no brainer. Please vote YES on HB-4106. Thank you.

Sincerely,

Chad Kernutt
