

Submitter: Stewart King
On Behalf Of: Myself
Committee: House Committee On Rules
Measure: HB4026

Please support HB4026,

Twenty-nine years ago, I moved into North Plains, married and started my family. I wanted to give back to my new community and get involved. I applied to the Planning Commission in 1995 and became the chairperson by 2001 to present. This is my second UGB expansion process for North Plains. We have spent over 5 years in the planning process and following State guidelines. Now, at the 11th hour, outside influences want to stop the process with a referendum to erase all our hard work. It seems unfair that all our planning and efforts to comply with State requirements should be decided by those who have had no participation in or have any knowledge of the process. Please support the State planning process.

Thank you,

Stewart King, North Plains Planning Commission Chair
North Plains Chamber of Commerce Treasurer
North Plains Events Association Treasurer
North Plains Senior Plaza Director
North Plains Parks Foundation Vice-President
