

Submitter: Brent Norman Jr

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: SB1508

Actually, I just have a series of questions. First: Are you a Christian? If yes, do you place more value on your life than mine? If so, is that what Jesus would answer? If you are a Christian, shouldn't you attempt to base your life and decisions upon what He would do? Second: If you're not a Christian, do you place more value on your life than mine? If so, why? Doesn't the Constitution (both Oregon's and that of the United States) provide that we are all equal under the eyes of God and the government? Please support SB 1508 A as should all members of the House. Insurance companies should *not* have the right to determine who lives or dies, or receives treatment necessary to sustain a quality of life that anyone else would receive. Thank you.
