

Submitter: Lynnette Hofler
On Behalf Of:
Committee: House Committee On Rules
Measure: HB4026

The people have the right to referendum if their local Gov does not represent their position. LCDC is nothing more than politically appointed individuals that have way too much authority and should have NOTHING to do with local UGB issues! In fact all UGB plans should HAVE to have a ballot vote by all constituents within a mile of the proposed plan amendments to change the land. And are you kidding! Retroactive! This is a direct attack on North Plains being halted in an unacceptable, poorly noticed UGB plan. Mayors are signing in favor in Washington County without even bringing it to their city council first. This is really misrepresenting the people again and again. Vote NO on appointed ideology's (LCDC) usurping the local public's right to vote and amend any local government decisions when vote of no confidence on the local government decisions in any land use decision.
