

Submitter: James Hallmark

On Behalf
Of:

Committee: House Committee On Agriculture, Land Use, Natural Resources, and
Water

Measure: HB4106

I oppose this bill as I hope most Oregonians would. Oregon is a state that values multiple uses of our forests. Our forests should provide water and soil preservation, habitat preservation for all the many forms of life that live in our forest, recreation and more. Forests should no longer be viewed as tree farms to be harvested for money. Oregonians and tourists alike hate seeing all the clear cuts in the forests of our state when they fly over our state. Please vote this bill down.
