

Submitter: Sue Craig  
On Behalf Of: Interfaith Earthkeepers  
Committee: Senate Committee On Energy and Environment  
Measure: HB4083

This is exactly what needs to happen to help our Earth. As people of Faith, we believe in the interconnectedness of all beings. We need in everyway to stop using fossil fuels for any reason, and to stop supporting those who produce these fuels. Thank you for working toward removing that financial support.
