

Submitter: Todd Clinesmith
On Behalf Of:
Committee: House Committee On Revenue
Measure: HB4007

My family lost all of our structures , timber and business in the Archie Creek fire. The fire had devastated us financially. Three and a half years later we are still rebuilding , replanting and working hard to get our life caught up to where it once was. We still have a long ways to go. With the settlement we could rebuild and recoup what we have lost, but the tax burden will take that away. Please consider the broken lives through out the state that have suffered over the last few years and years to come and get this bill passed .
