

Submitter: Rich Rohde
On Behalf Of: Justice Peace team of Medford UCC
Committee: Senate Committee On Energy and Environment
Measure: HB4083

Senate Committee on Energy and Environment.

I am strongly supporting your passing the legislation to divest our Oregon investments in coal companies. Our family is strongly involved in doing all we can to address climate change. But we need to have support from our legislators to take our state funds out of investing in continued coal extraction and use. Even if all our families are doing their part to change our lifestyle and energy usage there will continue to be a vital need to our state to also do its part in ending coal burning. Please vote yes for HB4083
