

Submitter: Mark Talcott
On Behalf Of:
Committee: House Committee On Revenue
Measure: HB4007

I strongly support HB 4007 that will allow fire victims a larger share of their settlement funds for rebuilding after a wildfire. It is not right for victims to have waited over 3 years to reach a settlement providing them funds for their losses, only to have the state grab a portion away from them leaving the true victim without enough funding to fully re build or rehab their property. Taking victims funding is a really sick low blow by the state government.
