

Submitter: Clair Klock

On Behalf Of:

Committee: Senate Committee On Natural Resources and Wildfire

Measure: HB4102

Senator Golden and member of the committee,  
I'm Clair Klock from Corbett, OR. I urge your support of HB4102. All the reasons that the bill should be enacted have been covered. I would like to add that from 50 years of conservation education, farming, and working as natural resources conservation specialist, I firmly believe that we need to invest in our working lands. These are lands in our state, not elsewhere. Investments in working land not only help state and national security, but also help us set an example that we care for future generation of young people.

Thanks you for your time in the legislature and other community activities.
