

Submitter: Michael Winder

On Behalf Of:

Committee: Senate Committee On Rules

Measure: SB1548

Please pass this legislation to abolish daylight savings time in Oregon as soon as possible. Daylight savings time is archaic, unnecessary, and needlessly disruptive to 21st century life. It only serves to make people late for work or school, disrupts children's routines (which makes for unnecessary burdens on families), is frustrating for businesses, and can lead to lower productivity and unhappiness overall. We have ample artificial lighting; we no longer need to fiddle with clocks so we can trick the sun into changing its schedule.
