

Submitter: Bradley Russell

On Behalf Of:

Committee: Senate Committee On Rules

Measure: SB1548

I am strongly opposed to SB 1548 as currently written. Northwest Oregon and Southwest Washington are an integrated economic zone and having different times will create unnecessary impacts on our economy. People missing flights out of PDX, late to work, less time with families and more. If changes are happening to daylight savings time then they need to happen with Washington in sync.
