

Submitter: Alice Lundell
On Behalf Of:
Committee: Senate Committee On Rules
Measure: SB1548

I oppose the adoption of permanent standard time for all 12 months of the year and ask the members of the committee to oppose this bill. More people are out and about during the evenings than the mornings to be able to benefit from daylight at the end of the day. The loss of an hour of daylight in the evenings would be detrimental to my and many others' enjoyment of light summer evenings for socializing, sports, gardening and other activities. Having less light in the mornings affects fewer people since not everyone has to get up early to work. Let's keep our summer evenings safe and avoid the detrimental effects of this bill. Thank you.
