

Submitter: Jesse Lawrence

On Behalf Of:

Committee: Senate Committee On Rules

Measure: SB1548

Permanent standard time would have the sun rising as early as 4:00 am, with twilight even earlier for parts of the summer. It would also put Oregon 4 hours off of the East Coast, instead of the current 3 along with a sudden 2 hour difference with a piece of Oregon and bordering MTZ states. We already passed Permanent Daylight Savings time. Stick with that or leave as is.
