

Submitter: June Perry
On Behalf Of:
Committee: Senate Committee On Rules
Measure: SB1548

I am an elderly citizen residing in Hillsboro, Oregon.
I would like for our state to go back to standard time all year.
I would like to see us stay on standard time all year long.
My dad said one needs to go to work at the break of dawn, then just set your alarm clock to wake you up at the time you need to get up.
Why make everyone else have to get up, just because you have to get up early.
We now have many workers working night shifts. Also working alternate time shifts.
The businesses are able to regulate their time to suits their needs. The school children have to be in school usually at 9:00 A.M. But many school Districts also have been able to regulate their starting and ending time to suit the needs of a community.
I am voting for standard time year round.
