

Submitter: Victoria Clark
On Behalf Of:
Committee: Senate Committee On Rules
Measure: SB1548

I would support this bill if it proposed making DST permanent, but unfortunately this proposes the worse of two options. The majority of our population supports lighter evenings with DST. That option makes evening commutes safer, and the average person would be able to utilize more daylight each day. We only have PST 4 months out of the year versus 8 months of DST. This would be a far more drastic change than what has been stated. We would also be out of sync with Washington and California. This makes things far more complicated than they need to be. I oppose permanent PST.
