

Submitter: Kevin Gee
On Behalf Of: Oregonian
Committee: Senate Committee On Energy and Environment
Measure: HB4015

This matter should have _never_ come before the state-level Democrats who have expressed and are expressing their intent to cede Oregonians' sovereignty, esp. under the guise of _forcing_ counties to accept federally funded "green energy" projects - regardless of overwhelming local/county-level opposition. Shame on those who vote Aye for this administrative insurrection!! We are watching this bill closely to provide support for those who vote Nay.
