

Submitter: Eileen Bothum

On Behalf Of:

Committee: Senate Committee On Rules

Measure: SB1548

I support Oregon's permanent standard time observance. SB1548

Citizens struggle with sleep deprivation and changing schedules. This creates loss of productivity on the job, accidents & irrational behavior.

Standardization of time is beneficial not only to the workforce of Oregon but to citizens' individual health of body and mind.

Other states will follow suit. It's time for Oregon to take the lead in standardizing time.
