

Submitter: Robert Andersen
On Behalf Of:
Committee: Senate Committee On Rules
Measure: SB1548

I support year around Pacific Standard Time. Oregon should take the lead on the west coast in staying on a single time year around. I believe Standard time is better than Daylight Saving Time. Our natural biological clocks work best when it is coordinated with the natural cycle of the sun. Students in elementary, middle and high school also perform better with the later schedule of standard time. Those individuals who choose to begin their days an hour earlier can freely do so.

Bob Andersen
