Measure: SB1548

Dear Committee,

I don't understand the benefit of year-around standard time. I really enjoy the long days and late sunsets. If we don't change to daylight time, I think a lot of good time will be wasted very early in the morning, If anything, I think we should stay on daylight time year around. And we certainly don't want to be on a different time zone than Washington and California and British Columbia. The three west coast states were in agreement to go to year-around daylight savings time. I think that is the direction we should go rather than diverge from our neighbors.
