Measure: HB4024

We want meaningful campaign finance reform, not review or new rules that the public has had no opportunity to see before passage. Our elections are far too expensive. We can't call our country a democracy when money determines 90% of elections and to run requires ridiculous amounts of money, most of which comes from corporations that buy the elections and then make the rules. If we are to have government of by and for the people, we have to end the oligarchy, not strengthen it. The cynicism of the recent effort to frustrate the wishes of the populace is disheartening. Please help us to decrease the influence of money in elections
