Measure: HB4024

Oppose HB4024!

First, a 43-page amendment to read and understand, without law degree, is ridiculous and burdensome. Here I am on a Saturday night trying to make sense of this "study" bill. This 43-page amendment was posted on February 22nd with a Public Hearing the following day on the 23rd. What an underhanded SURPRISE!! This is absolutely unacceptable!!

I strongly oppose this bill due to its length and short time to research and understand it. My confidence in our elected officials continues to erode as you attempt to push this bill through. We need more time and the opportunity for in-depth input.
