

Submitter: Rebecca Simon

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: HB4130

I have been practicing medicine for the past 10 years and watched as patient care continues to go down as a result of corporate greed. Doctors and nurses are continually pushed to manage more patients with less and less time. This is resulting in mistakes and poor patient satisfaction. I watch many providers leaving healthcare from burnout while major corporations profit. If we do not address this we will have no providers caring for patients in the future.
