

Submitter: Jennifer Gerber

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: HB4130

Dear Senators, I have already seen the effects of corporate medicine entering and disrupting care to our community just from a change at 2 of the main Providence hospitals from a physician owned anesthesiology group to a private equity backed one. As several of us were against being a part of corporate medicine, these hospitals struggled to staff and operate their ORs- leaving many people around the state unable to get needed surgeries for quite some time. Please help stop this nonsense from continuing. It is hurting the care that each of us and those we love deserve. We will continue to drive good doctors out of this state, and instead be putting money in the pockets of these administrators if we do not stop corporate medicine from taking over.

Sincerely,

Jennifer Gerber, MD.
