

Submitter: Megan Long MD

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: HB4130

As an emergency physician who has witnessed patients suffering at the hand of corporations practicing medicine, I urge our legislatures to support HB 4130. When corporations put profits above patients, their health and well-being suffer. Studies have shown when private equity controls medical practices or nursing homes, the quality of care takes a nose dive. When considering HB 4130 think of this way - who would you want taking care of your mother? A physician with heart or Wall Street's wallet?
