

Submitter: Ori Gottlieb
On Behalf Of: Patients
Committee: Senate Committee On Health Care
Measure: HB4130

The practice of medicine is something that I take very seriously. It is an honor and a privilege to follow the Hippocratic oath and to always do what's best for my patients.. I attended and graduated medical school because of a passion to advocate for my patients and to see that they get the best care.

Corporations place profits over Patient care and cannot be allowed to dictate healthcare decisions. They took no Hippocratic oath. They do not follow the same passion. They do not feel the same responsibility.

Please protect our patients by standing by those who have vowed to care for them.
