

Submitter: Conor Healy

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: HB4130

I write in support of this bill. Corporate ownership of medical practice has worsened patient outcomes and care. There have been increasing wait times, boarding, and more difficulty navigating the healthcare system. This bill would help eliminate non-physicians from dictating medical care - it would keep them from making employment and staffing decisions, and prevent the focus being on profit and metrics and instead of what it should be on - patient outcomes.
