

Submitter: Robert Currie  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: SB1576

Representative Kropf,

I am in favor of the recreational immunity bill. Hiking trails, using our parks involves some level of risk. Every citizen must weigh these risks in light of their own fitness and comfort level. It seems ridiculous that we even need such laws, the nature of our litigious society sadly. Without this protection, I can see local government agencies (cities, counties, park districts, even the state) close down such trails, refuse to build new trails, thus limiting our outdoor recreation and fitness opportunities. I would appreciate your support for this bill.

Sincerely,  
Robert Currie
