

Submitter: David Wall
On Behalf Of: Mr Oregon Opposes SB 1502
Committee: House Committee On Education
Measure: SB1502

I OPPOSE [SB1502].

Poor school districts in rural areas without Broadband will be unable to comply even if [SB 1502] is Engrossed.

[SB 1502] serves as an "unfunded mandate."

School District's transparency issues continue to improve faster and more complete than Government's apparent intentional avoidance. Take the Public Records Act for example.

Yamhill County charges an "arm and a leg" in fees for "Public Records." This serves to "chill free speech."

Have the Legislature "wean" State Departments from having access to "Lottery Funds" and transfer more money to schools to support [SB 1502] and more importantly: hiring more teachers at higher rates of pay, extending the school day, upgrades in academic curriculum, improved focus on academic achievement-"NO" social promotions, eradication of; "Diversity Equity and Inclusion (DEI) programs, Critical Race Theory, The 1619 Project, the Marxist philosophies of Black Lives Matter, "Pro-noun usage, Transgender bathrooms and sports participation and sexual indoctrination of any kind in class rooms and or libraries.

Where is more funding for Oregon's School for the Deaf and Blind in [SB 1502]?

David S. Wall
Mr. Oregon Concur.
