On Behalf Of: we the people

Committee: Senate Committee On Finance and Revenue

Measure: SB1593

Senate Committee on Revenue:

Taxes should be reduced to encourage and increase job growth and business investment in our state. Additional taxation drive business and jobs away. The timber owners are already obligated to property taxes, the employees of the timber harvesting companies along with the processors pay income tax. When is enough enough??

In the bill, a purpose for the new income is to provide a stable income for fire mitigation, etc. Less harvesting will bring less tax monies. Our forests need management (not taxes) to provide optimal growth/harvest and to reduce the devastation from fires.

Allow our companies to work.

Thank you,
Mark Pease
