On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: SB1581

I support this bill because it makes sense as a step toward larger utility companies working together to ensure a reliable supply of energy needs. People's lives often depend upon energy supply, as well as the ability to lead their daily lives. Most, if not all, businesses also need a steady, reliable supply of energy; therefore this is also crucial to people's livelihoods and the stability of our state's economy. Reasonable steps that can be taken to ensure cooperation in enhancing reliability and safety in energy supply should be made a priority.
