

Submitter: Kevin Gee
On Behalf Of: Oregonian Taxpayers
Committee: House Committee On Rules
Measure: SB1538

The Gartner evaluation stated the system was NOT qualified to meet the standards to be used for the 2024 election (emphasis added); therefore, voters need answers and a voting system that actually works fairly and not a runaround to avoid transparency. OPPOSE Senate Bill 1538 on every level during this short session until it fails. Vote NO.
