Measure: SB1576

I support this Senate Bill and believe that land owners should remain immune from liability. They are providing a great service to the community by opening up their land to the public, and they should be encouraged to continue. It would be upsetting to lose access to so many beautiful areas simply because of the fear of liability in the event of an accident. Those who choose to go hiking, biking, etc. on trails should be aware of the risks and take responsibility for their own well being.
