Submitter:	Laurie Kimmell
On Behalf Of:	
Committee:	House Committee On Rules
Measure:	SB1571

I would not allow artificial intelligence in this bill. Artificial Intelligence has not been perfected and is in the infant stage. There have been numerous incorrect information generated by IA being used. Examples of mistakes are Google's blunder with the Gemini system. https://techcrunch.com/2024/02/23/embarrassing-and-wrong-google-admits-it-lost-control-of-image-generating AI and Michael Cohen submitted false case law generated from AI. His attorney had to explain to a judge how court rulings that do not exist were cited in a motion submitted.

If AI is incorrect and used on campaign material how is it going to be proven it was AI instead of the candidate making up a falsehood? .
