

Submitter: Alicia Van Driel

On Behalf Of:

Committee: Senate Committee On Rules

Measure: HB4130

HB 4130 Support. This bill is VERY important. If owners / corporations are allowed to dictate terms of service, limit testing, time with physicians, forbid procedures or interfere with doctors decisions, the very heart of health care and intent to heal and support patients becomes secondary to profits. PLEASE support HB 4130 and keep corporations from controlling patients health for their own benefit.

Thank you.
