

Submitter: Kimberly Foster  
On Behalf Of:  
Committee: Senate Committee On Rules  
Measure: HB4130

Hello,

I am writing to express my strong support for House Bill 4130, which seeks to ensure that only licensed DOCTORS are in charge of medical practices.

We MUST regulate the ownership and management relationships between professional medical corporations and management services organizations. This crucial legislation aims to ensure transparency, prevent conflicts of interest, and uphold the integrity of healthcare services.

By prohibiting shareholders, directors, or officers of medical corporations from simultaneously owning or controlling shares in, serving as a director or officer of, or participating in managing both the professional corporation and a management services organization, the bill establishes clear boundaries. This prohibition is essential in maintaining the focus on delivering quality healthcare services without compromising professional standards.

House Bill 4130 is a commendable effort to safeguard the interests of patients and maintain the highest standards of professional conduct within the medical field. I urge you to support and pass this bill to promote transparency, ethical practices, and the overall well-being of our healthcare system, ESPECIALLY for those of us in poor, rural, disadvantaged communities on the Southern Oregon Coast.

Regards,

Kim
